

## **BioFoundry<sup>®</sup> Announces New Channel Program Partner, Astrosoft Development Ltd.**

Somerset, N.J., March 9, 2006 – BioFoundry<sup>®</sup>, a division of OSS Nokalva, Inc., announced today the addition of Astrosoft Development Ltd. to its Channel Partner Program.

Astrosoft, a leading provider of full-cycle software development services, has integrated the BioFoundry<sup>®</sup> components into their new MatchLogon, password replacement, offering. MatchLogon is a robust security platform offering authentication, authorization, auditing, and administration.

“Astrosoft is committed to offering standards-based security solutions and we are delighted to welcome them to our Partner Program. In MatchLogon, they have incorporated BioAPI in a novel, yet highly effective manner – providing ease of integration of both biometric and non-biometric authentication technologies.” explained Bharat Shah, Business Development Manager for BioFoundry<sup>®</sup>. “MatchLogon delivers a high degree of flexibility without sacrificing security.”

“We selected the BioFoundry<sup>®</sup> BioAPI Framework because it offers robust, supported implementations of both BioAPI 1.1 (ANSI), and 2.0 (ISO). In addition to the Framework, BioFoundry<sup>®</sup> enables us to easily offer both BioAPI 1.1 and 2.0 support. The BioFoundry<sup>®</sup> BioAPI 2.0/1.1 Adapter allows us to easily deliver BioAPI 2.0 solutions using existing BioAPI 1.1 BSPs. BioFoundry<sup>®</sup> provides us with flexibility and ease of use, while at the same time delivering the highest quality software and support needed to deploy at the enterprise level.”, commented Michael Alperovich of Astrosoft Development.
