

BioFoundry[®] Announces BioAPI 2.0 WinCE Reference Implementation

Somerset, N.J., October 2, 2006 – BioFoundry[®], a division of OSS Nokalva, Inc., announced today the immediate availability of a BioAPI 2.0 WinCE Reference Implementation.

The BioFoundry[®] BioAPI 2.0 Reference Implementation which fully implements the ISO BioAPI specification, ISO/IEC 19784-1 is now available for Windows, Linux, and WinCE. BioAPI 2.0 introduced several important new features, while extending the component model of BioAPI 1.1. BioAPI 2.0 is the result of a series of simplifications and enhancements made to BioAPI 1.1, taking into account feedback received from the users of BioAPI 1.1. The WinCE implementation now makes available to WinCE developers the important new features and benefits introduced by BioAPI 2.0.

“Our development of a BioAPI 2.0 WinCE Reference Implementation demonstrates OSS’ continuing commitment to the biometrics community and its use of standards” commented Alexandru Czimbor, BioFoundry[®] Program Director.

The BioFoundry[®] BioAPI 2.0 WinCE Reference Implementation, a complete, high quality development kit, includes:

- BioAPI 2.0 framework implementation
- Template BSP
- Sample password BSP
- Sample application
- User documentation

The BioFoundry[®] BioAPI 2.0 WinCE Reference Implementation has many benefits, which add up to reducing the cost and risk of biometrics adoption for WinCE developers, integrators, and end-users. Benefits include:

- Facilitating BioAPI 2.0 WinCE application and BSP development in the fast growing mobile device market
- Promoting BioAPI component interoperability through rapid adoption of the standard
- Increasing confidence in the correctness of the specification
- Reducing the risk of ad-hoc biometrics “standards” being developed

A free 30 day trial is available. For more information about our offering, please visit www.biofoundry.com, call +1-888-677-2761 (Toll free USA and Canada), + 1-732-302-0750 (International), or email info@biofoundry.com.

About BioFoundry[®]

BioFoundry[®], a division of OSS Nokalva, Inc. provides standards-based biometric solutions and professional services, and is a leading contributor to biometrics standards development at both the national and the international level. Since 1988, OSS Nokalva has been instrumental in shaping and developing both standards and technologies.
